

GUIDELINES FOR MANAGER APPLICANTS

The mission of The 3&2 Baseball Club of Johnson County is to provide the youth of our community with a quality environment which promotes sportsmanship, instruction, teamwork, and enjoyment of the baseball experience. While there are many aspects to your portion of this mission, one of the most important is to assist the league in ensuring the continued participation of our players. Each year new teams are created while others merge, fold or reorganize. Unfortunately, one of the results of these changes is players seemingly left without a team. Attached are some ideas to assist you with these situations.

Timely Notification: The fall is the time to notify your players and families of your plans for next year. Not right before registration. If necessary, this allows the time for orderly changes in their continuing baseball experience.

Safety: Will all your current players be able to compete in a reasonably safe manner at the level your team is planning to play next year? As adults, whether we are managers, coaches or parents, we have a responsibility to provide a safe baseball experience for our children.

Positions: Are your players getting a chance to play the positions they desire? If not, would a change to another team allow for this?

Success: As with safety, managers, coaches and parents should attempt to place players on a team where their individual skills are commensurate with most of the other players in their league. Does each player have a reasonable chance to succeed at the level your team plans to play next year?

Alternate Managers: Make sure your players know how to contact other managers in their high school area for their grade. The 3&2 web site is the most up to date source. Try to give personal recommendations, and/or introductions, if required.

Registration: All players who register to play baseball will be placed on a team. Make certain all your current players and families understand this fact. Details on the location, dates and times for registration will be posted on the 3&2 web site.

Thanks for all your time and effort as managers in our league. Your continued support of the youth in our community is the backbone to our organization!
